Data in this statistical summary relates to the students, staff, and the financing of provincially-assisted postsecondary educational institutions in Ontario. The 1975-76 edition of this book indicated continued stabilization of growth in full-time postsecondary enrollment at both colleges and universities. The data show an enrollment increase over the previous year of 6.07 percent at universities and 5.81 percent at colleges of applied arts and technology. Part-time enrollment follows a similar pattern with an increase over the previous year of 7.97 percent at universities and 5.81 percent at colleges of applied arts and technology. (Author/LBH)

*FOOTNOTES:*

1. *In the case of universities, includes only students eligible to generate assistance under the formula financing scheme. Factors used in the conversion of part-time students to full-time equivalents (FTEs) are: Universities and Ryerson undergraduates – number of study units x .2, graduates – number of students x .3; CAATs (post-secondary and non post-secondary) – 852 contact hours.*
2. *Figure for 1974 represents the number of revenue FTEs (post-secondary, career-oriented and general-interest courses – 300 contact hours; adult training – 852 contact hours). 1975 figures represent cost FTEs – 852 contact hours for all students.*
